

Harvesta

Agri · Food · Electrical & Mechanical Trading

About us

Harvesta is a trading company based in Hyderabad, Telangana, India. We trade in agri products, food products, and electrical and mechanical products.

Vision: To be a dependable trading partner for agri, food and industrial supply.

Mission: To supply the right material, with clear communication and proper documentation, to every buyer we serve.

Business activities

- **Agri products** - including raw material supply for bio-energy and compressed bio gas feedstock.
- **Food products** - supplied to trade and corporate buyers.
- **Electrical & mechanical products** - motors, conveyor belts, gearboxes, pulleys, bearings, machinery and spares.

Clients and associations

- Registered vendor of Frankfort Plastics USA - supply of motors, conveyor belts, gearboxes, pulleys, bearings, machinery and related items.
- Supplier to Reliance Bio Energy Limited - raw material for their Compressed Bio Gas (CBG) plant.
- We are in the process of associating with other groups for the supply of materials.

Additional documents are available on verified request.

Plans and intentions

Our plans (not guarantees) include adding more industrial and corporate groups, widening the compressed bio gas raw-material supply chain with verified agri-based suppliers, growing the electrical and mechanical range, building documented agri and food export and import trade, launching an online catalogue and quote system, strengthening banking relationships, and building a network of warehouses and logistics partners.
